Maybe not?

1. Find the fish

2. Use the biggest, brightest
bait that a fish will eat.

3.

Fish your feet first

4. Spooked fish are wary fish

A fly fisherman is shown from behind, standing in a shallow river. He is wearing a wide-brimmed hat, a dark t-shirt, dark shorts, and tall black waders. He has a fishing net on his back and is holding a fishing rod with both hands, casting it into the water. The river is surrounded by lush green vegetation, including ferns and trees. The water is clear, and the scene is peaceful.

5. Contact, contact, contact!

5. Don't fight the fish - outsmart it!

7. Appropriate strike technique

8. Fish where others don't

9. Biology - Sex, food and temperature

10. Change frequently and thoroughly
